Greetings CEO MESSAGE

As an industrial machinery and equipment trading company, Jeongsan Co., Ltd supplies the best products with speed and accuracy in accordance with local and international industry development based on our 40 years experience and techniques.

With a development of lots of products and fluctuation in products price and exchange rate day by day, speedy and accurate information is urgently needed. Jeongsan has made sole agent contracts with about 20 companies in worldwide such as Europe, America, Japan and etc. and all staffs are dedicating themselves to technical support and customer service.

To achieve its goal to lead the market with differentiated products and be a competitive WORLD'S BEST BUSINESS PARTNER, Jeongsan is making an effort to create customer value with the best service.

Furthermore, Jeongsan will become a more rapid and active company to contribute to industry development in the country and offer integrated service to the customers with its regional and industrial agencies all over the country under its management policy; All staff's professionalization with a pride of supplying world's best quality products.

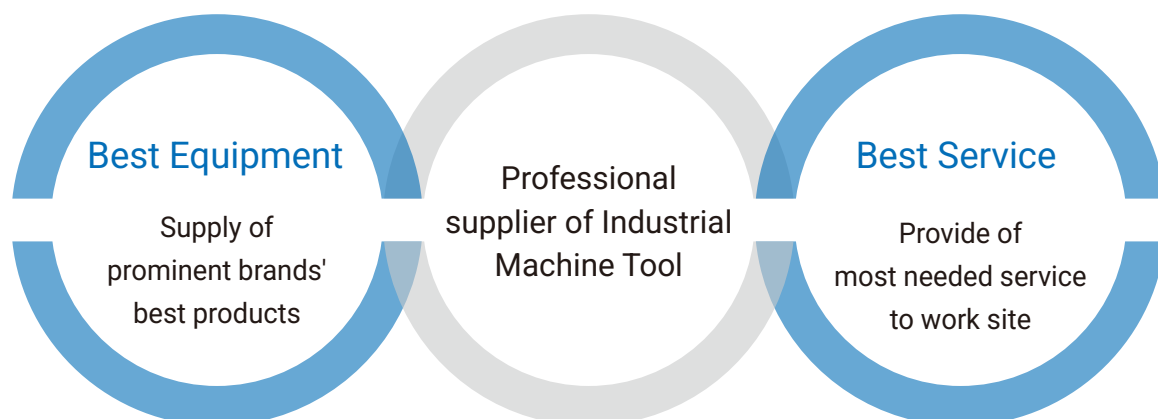

In addition, Jeongsan will be a specialized leading supplier of industrial machinery and measuring equipment by meeting the customers' requirements in any conditions with its rational management.

CEO seok-hwan kim

Company Motto

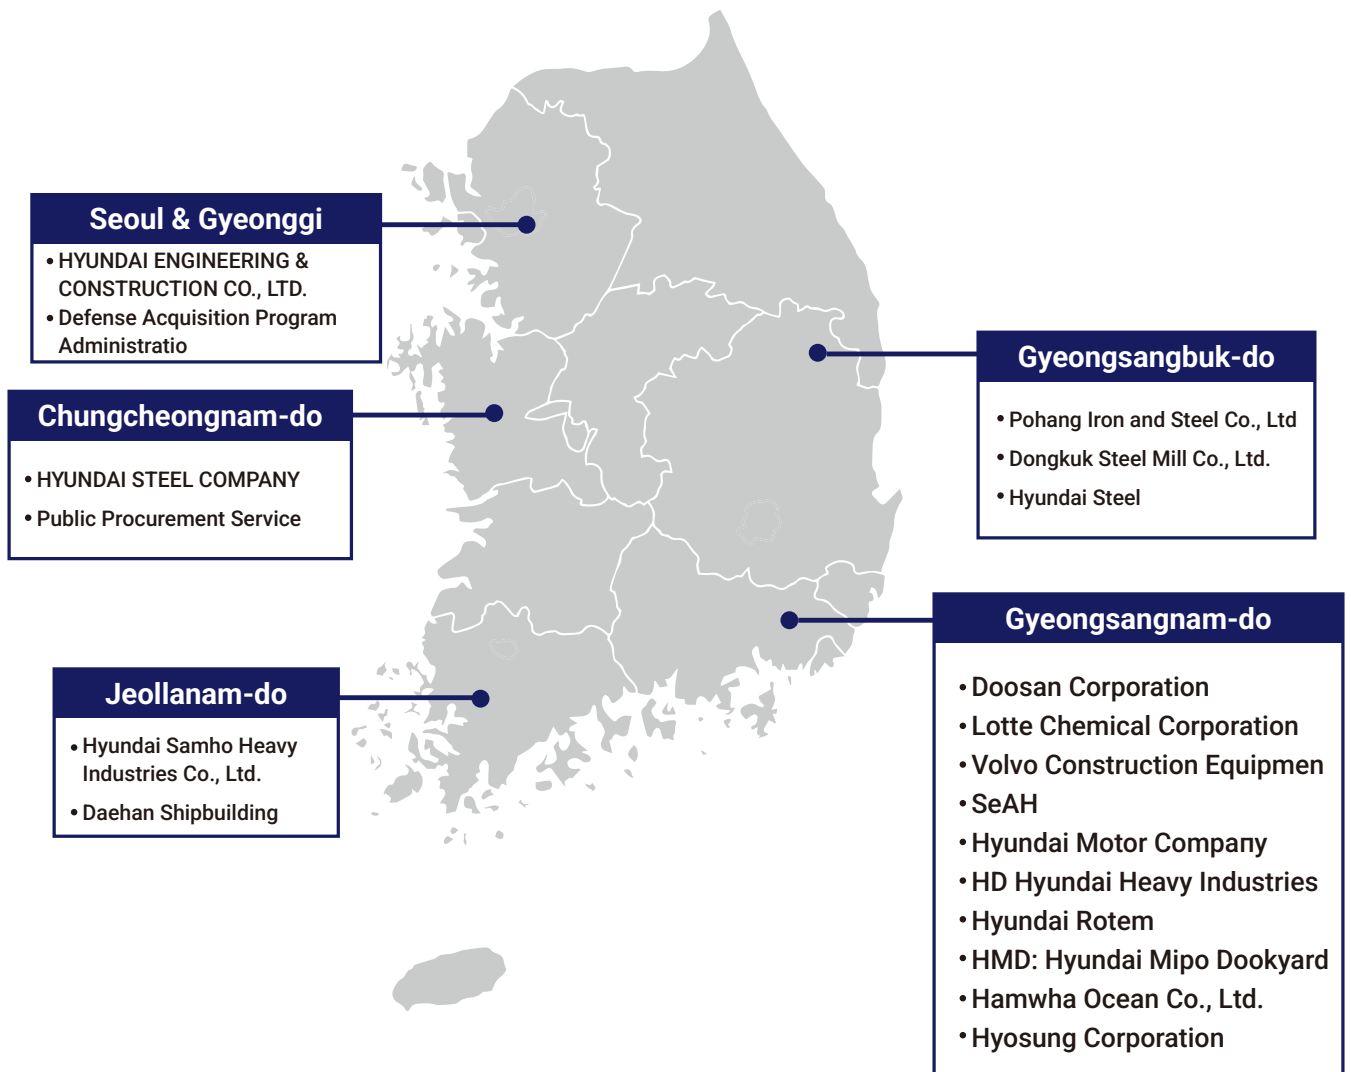

Vision

Management Goals

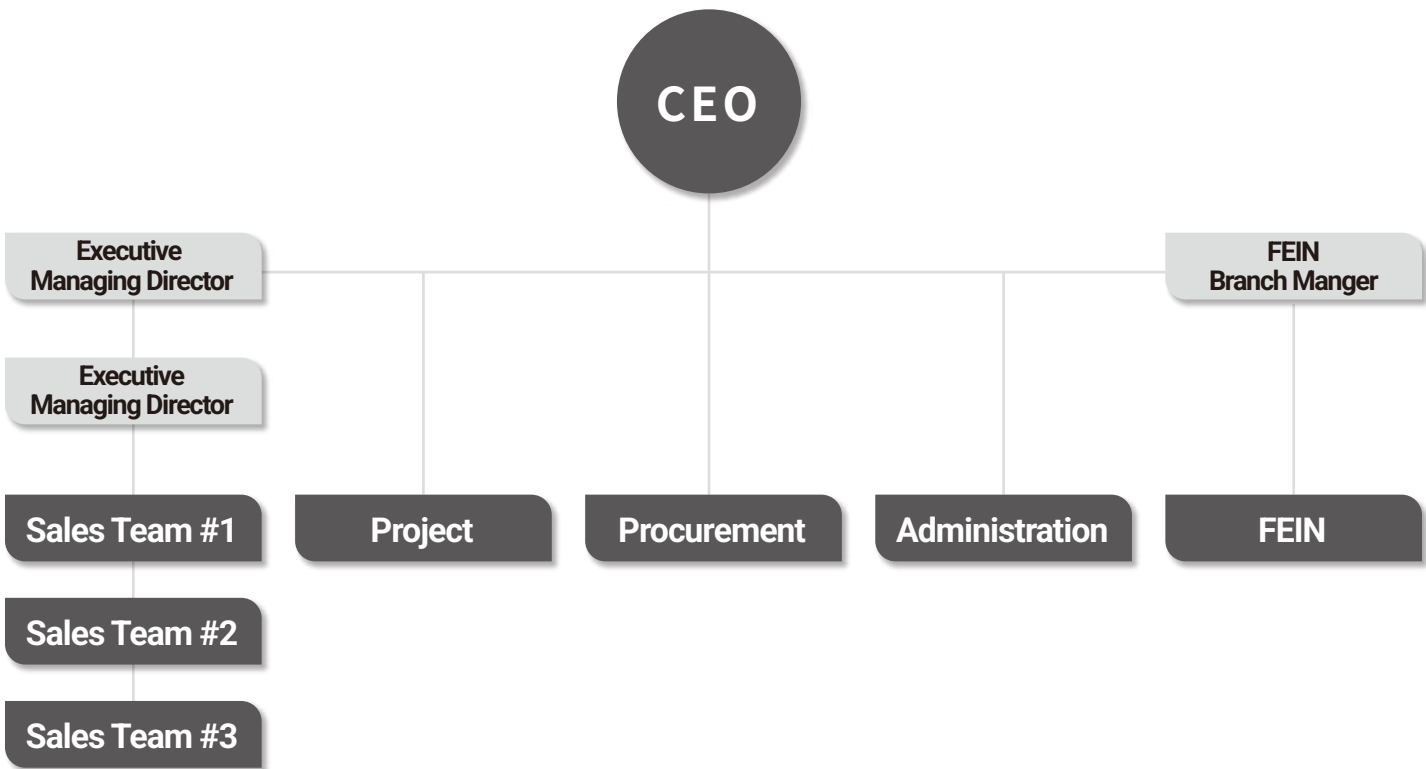

01 COMPANY PROFILE

Korea's leading provider of industrial machinery and tool technology.

- Industrial machinery and tools supply for Heavy industry, Shipbuilding Industry
- Maintenance machinery and tools supply for process industry such as Steel, Metal, Chemistry and etc.
- Regional agencies operation and management over the country
- Sole sales agency contracts with world-wide brand companies such as in America, Europe, Japan and etc.
- Sales agency contracts with local high quality makers
- Independent department operation for overseas project on turn-key basis
- Cost reduction with improvement of work efficiency, accuracy and production quality
- After-sales service network all around the country
- JIG, TOOLS, PUMP PART manufacturing and assembly capacity

04 AUTHENTICATION CERTIFICATE

ISO 9001:2008

ISO 14001:2004

MAIN-BIZ CERTIFICATE

01 Sales Team

- Providing One-Stop solutions through dedicated managers assigned to each supply project
- Proposing customized Best Solutions through on-site visits
- Delivering accountable service through direct delivery by assigned managers

Metal · Chemical · Steel Industries

- Supply of industrial tools, measuring instruments, and machinery with specialized after-sales service
- Supply of specialized equipment for marine project construction sites
- Equipment supply and customized solutions tailored to owner company requirements

Heavy Industry · Shipbuilding

- Participation in bidding and unit-price contracts through collaboration with B2B partners
- Supply of maintenance machinery and tools for facility maintenance through on-site support

Public Procurement Service · KONEPS · Defense Acquisition Program Administration

- Contract acquisition and supply through national e-procurement systems

Main Product Categories

- Hydraulic Equipment
Hydraulic cylinders, hydraulic pumps, hydraulic torque wrenches, hydraulic tensioners
- Measuring Instruments
Thermal imaging cameras, inspection cameras, cable testers, insulation testers, multimeters
- Power Tools & Others
Electric screwdrivers, electric/pneumatic impact tools, electric/pneumatic grinders, various hand tools

02 Workshop & Laboratory Turnkey Service

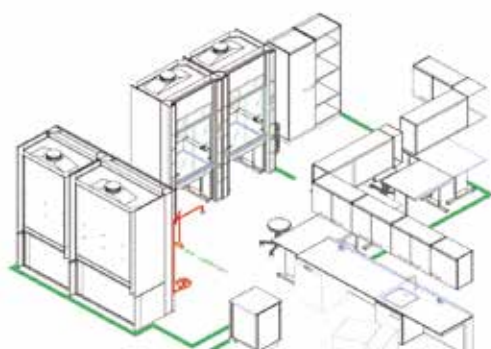

- Overseas Onshore & Offshore Plant Projects
- Execution of workshop and laboratory equipment supply, including turnkey package projects

Scope of Work

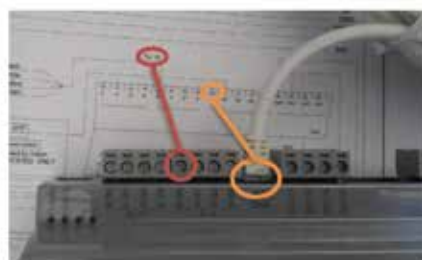

- Selection, proposal, supply, installation, and inspection of laboratory, workshop, and maintenance equipment
- Supplier documentation management for overseas construction projects
- Laboratory and workshop room layout design, General Arrangement (GA) drawings (AutoCAD, 2D & 3D design)

Project execution for major oil companies

3D Modeling for Laboratory

After Sale Service

Installation instruction for Damaged Part

Main Equipment Categories

Workshop Equipment

Mechanical Workshop
Electric/Instrument Workshop
Automobile Workshop
Welding Workshop

Workshop furniture,
Storage rack,
Maintenance tool set

Laboratory Equipment

Laboratory Furniture
Testing Equipment
General Equipment
Glassware

Gymnasium equipment

Aerobic exercise
Weighting exercise

PRODUCTS

HYDRAULIC EQUIPMENT

HOLMATRO / ENERPAC / TECPOS

BOLTING TOOLS

SCANTOOL

Jeongsan Co., Ltd. provides true total solutions tailored to customer needs, based on extensive experience in industrial machinery and tools, along with the supply of diverse high-quality products.

Through continuous network expansion and advancement of distribution channels, Jeongsan Co., Ltd. is further strengthening and expanding its unique business capabilities.

WORKSHOP

Mechanical Workshop

Lathe, Milling machine, Drilling Machine, Grinding machine, Hydraulic Press, Surface grinder, Guillotine cutting machine, Sawing machine etc.

Electric / Instrument Workshop

Valve Pressure Testing Equipment, Electric / Pneumatic Test bench, Hydraulic Test equipment, Alignment tool, Oscilloscope, Earth tester Multi meter / Clamp Meter etc.

Automobile Workshop

Vehicle lift, Car ramp, Lubrication equipment, Battery Booster, LED lamp, Cleaning equipment, Hydraulic Jack, Car maintenance tool etc.

Welding Workshop

Welding machine (MMA, Tig), Electrode oven, Fume extractor, Oxyacetylene cutting set, Welding Protection Gear Post Welding Heat Treatment tool (PWHT) etc.

Workshop furniture, Storage rack, Maintenance tool set

LABORATORY

Laboratory Furniture Chemical resident system furniture

Fume cupboard, Water sink, Working table, Eye washer & shower, Desk, stool, cabinet etc.

Testing Equipment

Water Analysis equipment : Conductivity meter, pH meter, Do Meter, Spectro photometer etc.

Fuel, Oil Analysis equipment : Bomb oxygen calorimeter, Hydrometer, Viscometer, Titrator etc.

Gas Analysis equipment : Gas Chromato graphm, Dew-point Meter etc.

General Equipment & Glassware

Oven, Refrigerator, Balance, Electric Stirrer, Thermometer, Beaker, Bottle, Burette, Tube, Dish, Flask, Pipette, Pinset, Spatula, Clamp, etc

GYMNASIUM

Aerobic exercise

Treadmill, Recumbent bike, Elliptical trainer etc.

Weighting exercise

Weight bench, leg lift, Dumb-bell, Dumb-bell rack, Multi-Gym etc.

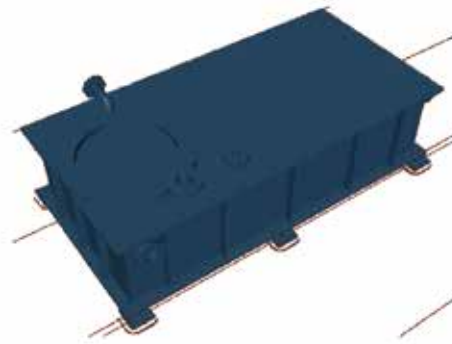

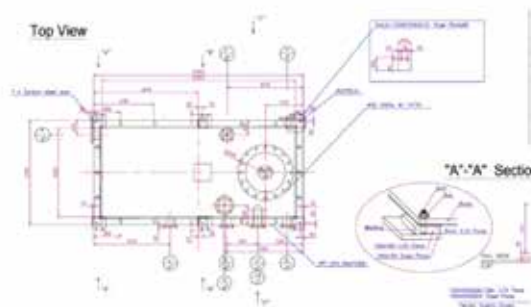

ORDER MADE PART

We manufacture and supply various components required for installation based on the specific requirements of the owner.

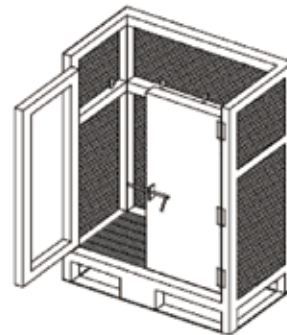

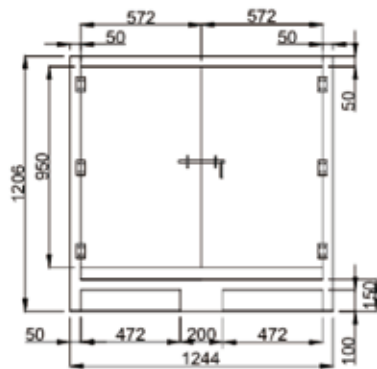

Laboratory Waste Liquid Storage Tank

Designed and supplied storage tanks for laboratory waste liquids generated after experiments where no dedicated storage facility was available.

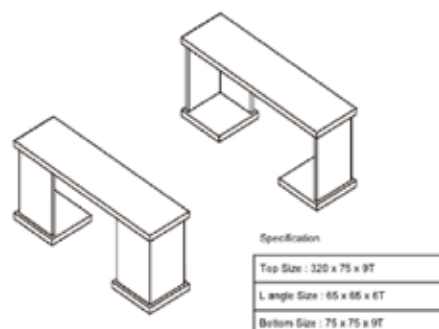

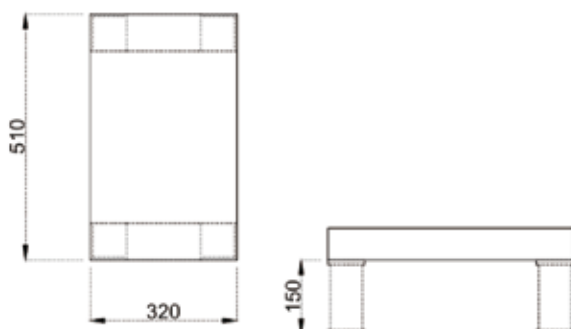

Stainless Steel Gas Storage Cabinet

Manufactured entirely with SUS 316 stainless steel considering continuous exposure to sea breeze and corrosive environments.

Welded Machine Base / Machine Sheet

Provided welded support structures for equipment operating in high-vibration environments to ensure stability and durability.

01 FEIN

A premium German power tool brand with over 140 years of proven performance in the steel, metal, and automotive industries. FEIN invented the world's first electric hand drill in Germany and continues to deliver industry-leading solutions for professionals. FEIN's advanced Magnetic Core Drill technology can reduce drilling time by up to 40% compared to conventional drilling methods.

02 Twyn

TWYN is a solution that enables real-time monitoring and simulation by digitalizing industrial sites into 3D environments. The 3D design-based augmented reality inspection solution allows users to overlay CAD drawings onto actual products, enabling faster and more efficient visual inspections.

03 Proto

Purchasing PROTO means investing in over 110 years of experience. PROTO is a Made in USA professional tool brand under Stanley Black & Decker, offering one of the world's widest ranges of industrial tools and equipment for various applications.

TITANE ANTIMAGNETIQUE

USO SUBACUATICO
UNDERWATER USE
UTILISATION SUBAQUATIQUE

EGA Master is a premium Spanish manufacturer of industrial machinery and tools.

Its products are widely used across oil & gas, mining, aerospace, automotive, and civil engineering (including underwater applications) industries, with more than 200 international patents. EGA Master supplies a broad range of specialized tools and equipment for high-risk environments, including: Hand tools/Pipe tools/1000V insulated tools/Non-sparking tools and titanium non-magnetic tools/Underwater tools/Intrinsically Safe / Explosion-Proof equipment with ATEX certification

Major Clients of EGA Master

Exxon Mobil, Shell, BHP Billiton, Siemens, Philips, Airbus, Coca Cola, Nissan-Renault, UN, NATO

05 PFERD & FERROBOTICS

Providing System Integration (SI) solutions for PFERD & FERROBOTICS robotic systems.

We analyze customer production processes and integrate the most suitable robots, robotic heads, and offline programming solutions for optimized performance. As the official Korean distributor of FERROBOTICS, Austria's advanced robotic grinding technology company, and PFERD, Germany's abrasive manufacturer with over 300 years of history, we deliver turnkey robotic automation solutions tailored to industrial production environments.

06 Tellure rota

Since 1953, Tellure Rôta has been designing and manufacturing wheels and casters for industrial, commercial, and residential applications.

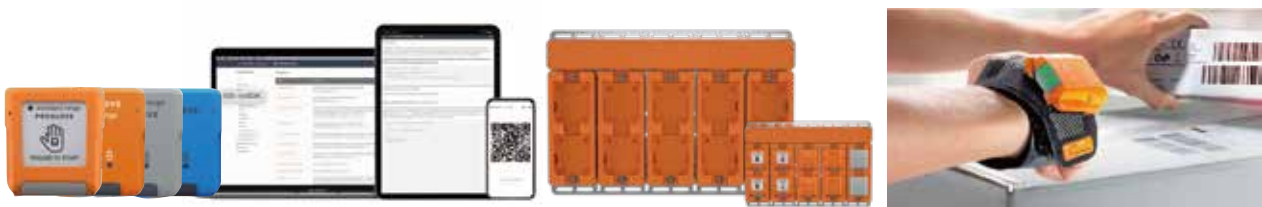

Tellure Rôta works closely with customers to provide customized solutions in terms of materials, dimensions, and structural design, ensuring products fully meet on-site operational requirements.

07 Thern-Cranes & Winches

With over 70 years of experience, THERN delivers premium lifting, pulling, and positioning equipment of the highest quality. THERN provides optimized solutions tailored to specific applications through customized design and modification capabilities. The company is committed to complete customer satisfaction through strict quality standards, reliable performance, and fast delivery.

08 Proglove

A wearable device solution designed for the Industry 4.0 era. ProGlove's wearable scanners, developed in Germany, help transform traditional industrial processes into networked intelligent production systems (Smart Factories) by integrating IT systems into manufacturing environments. Through its proprietary Insight platform, ProGlove provides integrated information systems for logistics tracking, workflow monitoring, workforce coordination, communication, and process improvement. Hands-free scanning minimizes unnecessary movements and improves speed, efficiency, and ergonomic working conditions. Supports integration with mobile and Windows back-end systems via Bluetooth, USB, and Wi-Fi connectivity.

09 Holmatro

Providing result-oriented customized high-pressure hydraulic solutions.

Holmatro's hydraulic equipment and systems are widely used worldwide in rescue operations, industrial applications, and specialized work environments. By applying game-changing technologies, Holmatro continuously develops innovative solutions that enable professionals to perform critical tasks efficiently and strives to lead each industrial sector it serves.

10 Bolting Master

Established in 1991, Bolting Master is a specialized company leading the field of precision bolting technology for industrial applications. Bolting Master develops and manufactures a wide range of products including hydraulic, battery-powered, and pneumatic torque wrenches, as well as torque testers, torque pumps, and related accessories, providing optimized solutions for accurate fastening and workplace safety. As a pioneer in localizing Korea's bolting market, the company also offers one-stop field services, including torque wrench calibration, maintenance, and user training.

11 ENERPAC

With over 100 years of proven engineering expertise, ENERPAC helps make industrial operations safer, easier, and more efficient.

ENERPAC is a global market leader in high-pressure hydraulic tools and precision control systems for heavy lifting applications. Its product range includes everything from low-capacity hydraulic cylinders to computer-controlled lifting and positioning systems.

ENERPAC designs and manufactures more than 50,000 products across 8 manufacturing facilities, supplying them worldwide through a distribution network of over 1,400 authorized dealers.
